

# Your submission to Zero Carbon Bill

## Reference no: 2130

**Submitter Type:** Individual

**Clause**

1. What process should the Government use to set a new emissions reduction target in legislation?

**Position**

The Government sets a 2050 target in legislation now

**Notes**

**Clause**

2. If the Government sets a 2050 target now, which is the best target for New Zealand?

**Position**

Net Zero Emissions - Net zero emissions across all greenhouse gases by 2050

**Notes**

**Clause**

3. How should New Zealand meet its targets?

**Position**

Domestic emissions reductions only (including from new forest planting)

**Notes**

**Clause**

4. Should the Zero Carbon Bill allow the 2050 target to be revised if circumstances change?

**Position**

Yes

**Notes**

OK to revise the 2050 target to sooner, but not later than 2050.

**Clause**

5. The Government proposes that three emissions budgets of five years each (i.e. covering the next 15 years) be in place at any given time. Do you agree with this proposal?

**Position**

Yes

**Notes**

**Clause**

6. Should the Government be able to alter the last emissions budget (i.e. furthest into the future)?

**Position**

Yes - each incoming Government should have the option to review the third budget in the sequence

**Notes**

The emissions budget should only be able to be reviewed if it reduces the target date (not extends it).

**Clause**

7. Should the Government have the ability to review and adjust the second emissions budget within a specific range under exceptional circumstances? See p36 Our Climate Your Say

**Position**

Yes

**Notes**

Only if it brings the target date earlier

**Clause**

8. Do you agree with the considerations we propose that the Government and the Climate Change Commission take into account when advising on and setting budgets? See p44 Our Climate Your Say

**Position**

Yes

**Notes**

**Clause**

9. Should the Zero Carbon Bill require Governments to set out plans within a certain timeframe to achieve the emissions budgets?

**Position**

Yes

**Notes**

**Clause**

10. What are the most important issues for the Government to consider in setting plans to meet budgets? For example, who do we need to work with, what else needs to be considered?

**Notes**

Public transport system; making solar power affordable (or other renewable forms of energy); creating alternative systems for people to use when the usual systems/infrastructure has been damaged by climate change events; build strong local communities so that people support each other.

**Clause**

11. The Government has proposed that the Climate Change Commission advises on and monitors New Zealand's progress towards its goals. Do you agree with these functions? See p42 Our Climate Your Say

**Position**

Yes

**Notes**

**Clause**

12. What role do you think the Climate Change Commission should have in relation to the New Zealand Emissions Trading Scheme (NZ ETS)?

**Position**

Makes decisions itself in respect of the number of units available in the NZ ETS

**Notes**

**Clause**

13. The Government has proposed that Climate Change Commissioners need to have a range of essential and desirable expertise. Do you agree with the proposed expertise? See p45 Our Climate Your Say

**Position**

Yes

**Notes**

**Clause**

14. Do you think the Zero Carbon Bill should cover adapting to climate change?

**Position**

Yes

**Notes**

The need to adapt should be acknowledged, but could be hard to specify in advance. New ideas and solutions will likely develop in response to new situations.

**Clause**

15. The Government has proposed a number of new functions to help us adapt to climate change. Do you agree with the proposed functions? See p47 Our Climate Your Say

**Position**

Yes

**Notes**

**Clause**

16. Should we explore setting up a targeted adaptation reporting power that could see some organisations share information on their exposure to climate change risks?

**Position**

Yes

**Notes**

**Clause**

Do you have any other comments you'd like to make?

**Notes**

Finding carbon sinks is vital - we need a national campaign to promote planting trees/leafy gardens/valuing & not chopping down mature trees

**You have elected to withhold your personal details from publication.**
