<b>A climate law like the Zero Carbon Act is important because...</b>	<p>The fact is we are destroying our home planet. If we do not stop- that's it.</p> <p>We must put our planet before money! Every partical of carbon we produce locks up 2 of oxygen-CO 2 .We have cut down the trees that give us oxygen and absorbs carbon. SO ZERO CARBON EMISSIONS IS A MUST</p>
<b>Long-term target</b>	<p>I support the most ambitious target of reducing total greenhouse gases to net zero by 2050. I also support taking a science-based approach to ensure our efforts to reduce emissions are as impactful as possible: we should aim for negative levels of long-lived gases, while reducing short-lived gases to sustainable levels. This target should be reached by reducing our own emissions and not by using international carbon credits.</p>
<b>Climate Commission</b>	<p>I support the establishment of an independent Climate Commission that is made up of experts and provides advice, but does not make final decisions.</p>
<b>Adaptation</b>	<p>I support a plan for adaptation being included in the Zero Carbon Act.</p>
<b>Climate justice</b>	<p>A Zero Carbon Act must be just and fair in that it honours Te Tiriti o Waitangi; ensures a just transition for workers and communities; and avoids passing on the costs to future generations.</p>
<b>Further comments</b>	<p>DO IT NOW!!!!!!</p>
