Subject: The Zero Carbon Bill.

To: whom it may concern:

I write to express my deep concerns relating to the proposed government Carbon Bill.

I am an older NZer who has always been interested in our environment, spending the first 22 years of my life working on the land and studying agriculture.

Since then I have worked in and with earth based industries, very much effected by weather and climate conditions.

I have **followed and studied with interest the political and scientific publications and policies that surround "Climate Change"**

I am becoming increasingly aware that to: ESTABLISH COSTLY POLICIES THAT ARE CURRENTLY BEING DRIVEN BY THE GREEN PARTY WITH AN IDEOLOGY THAT IS EMOTIVE AND FEAR BASED RATHER THAN - "SETTLED SCIENCE."

IT NEEDS TO BE STOPPED NOW.
