

# Your submission to Zero Carbon Bill

Helen Gafa

## Reference no: 8239

Submitter Type: Individual

### Clause

1. What process should the Government use to set a new emissions reduction target in legislation?

### Position

The Government sets a goal to reach net zero emissions by the second half of the century and the Climate Change Commission advises on the specific target for the Government to set later

### Notes

### Clause

2. If the Government sets a 2050 target now, which is the best target for New Zealand?

### Position

Net Zero Carbon Dioxide - Reducing net carbon dioxide emissions to zero by 2050

### Notes

### Clause

4. Should the Zero Carbon Bill allow the 2050 target to be revised if circumstances change?

### Position

Yes

### Notes

### Clause

5. The Government proposes that three emissions budgets of five years each (i.e. covering the next 15 years) be in place at any given time. Do you agree with this proposal?

### Position

No

### Notes

### Clause

6. Should the Government be able to alter the last emissions budget (i.e. furthest into the future)?

### Position

Yes - the third emissions budget should be able to be changed but only when the subsequent budget is set

### Notes

### Clause

7. Should the Government have the ability to review and adjust the second emissions budget within a specific range under exceptional circumstances? See p36 Our Climate Your Say

### Position

Yes

### Notes

### Clause

9. Should the Zero Carbon Bill require Governments to set out plans within a certain timeframe to achieve the emissions budgets?

### Position

No

### Notes

### Clause

11. The Government has proposed that the Climate Change Commission advises on and monitors New Zealand's progress towards its goals. Do you agree with these functions? See p42 Our Climate Your Say

### Position

No

**Notes**

No because they will have a biased view and insufficient scientific evidence to support it as they do currently

**Clause**

13. The Government has proposed that Climate Change Commissioners need to have a range of essential and desirable expertise. Do you agree with the proposed expertise? See p45 Our Climate Your Say

**Position**

No

**Notes**

They do not have the expertise or scientific knowledge - they are even unaware of the basic natural carbon cycle which is clearly and accurately demonstrated in the following clip: [https://www.youtube.com/watch?v=BOJdz\\_LgDBE&feature=share](https://www.youtube.com/watch?v=BOJdz_LgDBE&feature=share)

**Clause**

14. Do you think the Zero Carbon Bill should cover adapting to climate change?

**Position**

No

**Notes****Clause**

15. The Government has proposed a number of new functions to help us adapt to climate change. Do you agree with the proposed functions? See p47 Our Climate Your Say

**Position**

No

**Notes****Clause**

16. Should we explore setting up a targeted adaptation reporting power that could see some organisations share information on their exposure to climate change risks?

**Position**

No

**Notes****Clause**

Do you have any other comments you'd like to make?

**Notes**

Insufficient scientific unbiased research has been carried out on this topic. Government is heavily swayed by ignorant uneducated and unverified viewpoints.
