Domestic emissions reductions only (including from new forest planting)

Notes

Clause

4. Should the Zero Carbon Bill allow the 2050 target to be revised if circumstances change?

Position

Yes

Notes

Through the commission the latest scientific evidence should be used, however any changes must be managed to provide business certainty and prevent long term planning becoming a political football.

Yes

Notes

Noting that this timeframe is inadequately short in comparison to 30 year infrastructure strategies and the long lives of greenhouse gasses.

Position

Yes - each incoming Government should have the option to review the third budget in the sequence

No

Notes

This is consistent with the economic levers delegated to the reserve bank.

Position

Yes
