

Your submission to Zero Carbon Bill

john and megan glasson

Reference no: 9912

Submitter Type: Business / Industry

Clause

1. What process should the Government use to set a new emissions reduction target in legislation?

Notes

considering every thing around us what we are made of and what we eat is made of carbon the more there is the better

Clause

2. If the Government sets a 2050 target now, which is the best target for New Zealand?

Position

Net Zero Long-Lived Gases and Stabilised Short-Lived Gases - Long-lived gases to net zero by 2050 while also stabilising short-lived gases

Notes

if the ghg s cause heating this heat quickly disappears when the sun disappears therefore no heating occurs

Clause

4. Should the Zero Carbon Bill allow the 2050 target to be revised if circumstances change?

Position

No

Notes

Clause

5. The Government proposes that three emissions budgets of five years each (i.e. covering the next 15 years) be in place at any given time. Do you agree with this proposal?

Position

No

Notes

Clause

6. Should the Government be able to alter the last emissions budget (i.e. furthest into the future)?

Position

Yes - each incoming Government should have the option to review the third budget in the sequence

Notes

Clause

7. Should the Government have the ability to review and adjust the second emissions budget within a specific range under exceptional circumstances? See p36 Our Climate Your Say

Position

No

Notes

Clause

9. Should the Zero Carbon Bill require Governments to set out plans within a certain timeframe to achieve the emissions budgets?

Position

No

Notes

carbon does not cause warming the suns intensity of solar radiation does

Clause

10. What are the most important issues for the Government to consider in setting plans to meet budgets? For example, who do we need to work with, what else needs to be considered?

Notes

consult people who have nothing to gain by telling the truth about the climate

Clause

11. The Government has proposed that the Climate Change Commission advises on and monitors New Zealand's progress towards its goals. Do you agree with these functions? See p42 Our Climate Your Say

Position

No

Notes

looks like a nice cushy job for life

Clause

12. What role do you think the Climate Change Commission should have in relation to the New Zealand Emissions Trading Scheme (NZ ETS)?

Notes

it is a shame scheme

Clause

13. The Government has proposed that Climate Change Commissioners need to have a range of essential and desirable expertise. Do you agree with the proposed expertise? See p45 Our Climate Your Say

Position

Yes

Notes**Clause**

14. Do you think the Zero Carbon Bill should cover adapting to climate change?

Position

No

Notes

we have been adapting for thousands of years a waste of time and space

Clause

15. The Government has proposed a number of new functions to help us adapt to climate change. Do you agree with the proposed functions? See p47 Our Climate Your Say

Position

No

Notes

we will adapt as we go

Clause

16. Should we explore setting up a targeted adaptation reporting power that could see some organisations share information on their exposure to climate change risks?

Position

No

Notes

jobs for the boys and girls

Clause

Do you have any other comments you'd like to make?

Notes

this climate and carbon rubbish is the greatest wrought the world has seen . in the nz herald it was reported in the early 1980 s that the auckland water front would be under water in 20 years still waiting nearly 40 years on .what harm were CFC s doing until banned by the montreal protocol in1986 there in lies the answer to any very slight global heating happy researching have the guts to vote yourself out of a job.
