

Your submission to Zero Carbon Bill

Reference no: 10351

Submitter Type: Individual

Clause

1. What process should the Government use to set a new emissions reduction target in legislation?

Notes

None of the above. The Government are using the climate as a means of wealth redistribution and as a way of controlling peoples lives

Clause

2. If the Government sets a 2050 target now, which is the best target for New Zealand?

Notes

None of the above See my notes to question 1

Clause

3. How should New Zealand meet its targets?

Notes

New Zealand should ignore these targets Climate Change (previously known as Global Warming) was an idea mooted by Al Gore and others at the Rio earth summit in 1991. Gore and his like have become extremely wealthy as brokers in carbon credits

Clause

4. Should the Zero Carbon Bill allow the 2050 target to be revised if circumstances change?

Notes

Abandon all targets

Clause

5. The Government proposes that three emissions budgets of five years each (i.e. covering the next 15 years) be in place at any given time. Do you agree with this proposal?

Notes

Climate scientists keep on fooling the public because without global warming they would not have a job

Clause

6. Should the Government be able to alter the last emissions budget (i.e. furthest into the future)?

Notes

All budgets should be scrapped

Clause

7. Should the Government have the ability to review and adjust the second emissions budget within a specific range under exceptional circumstances? See p36 Our Climate Your Say

Position

Yes

Notes

But only to abandon all budgets

Clause

8. Do you agree with the considerations we propose that the Government and the Climate Change Commission take into account when advising on and setting budgets? See p44 Our Climate Your Say

Notes

Leave the climate alone, humans have no effect on climate

Clause

9. Should the Zero Carbon Bill require Governments to set out plans within a certain timeframe to achieve the emissions budgets?

Notes

Scrap the bill

Clause

10. What are the most important issues for the Government to consider in setting plans to meet budgets? For example, who do we need to work with, what else needs to be considered?

Notes

Honesty would be a nice change

Clause

11. The Government has proposed that the Climate Change Commission advises on and monitors New Zealand's progress towards its goals. Do you agree with these functions? See p42 Our Climate Your Say

Position

No

Notes**Clause**

12. What role do you think the Climate Change Commission should have in relation to the New Zealand Emissions Trading Scheme (NZ ETS)?

Notes

No role at all

Clause

13. The Government has proposed that Climate Change Commissioners need to have a range of essential and desirable expertise. Do you agree with the proposed expertise? See p45 Our Climate Your Say

Notes

No I do not trust these people who make a living out of global warming

Clause

14. Do you think the Zero Carbon Bill should cover adapting to climate change?

Notes

Svrap the bill

Clause

15. The Government has proposed a number of new functions to help us adapt to climate change. Do you agree with the proposed functions? See p47 Our Climate Your Say

Notes

Government is just devises ways for wealth redistribution

Clause

16. Should we explore setting up a targeted adaptation reporting power that could see some organisations share information on their exposure to climate change risks?

Notes

No,no more parasitic government departments

Clause

Do you have any other comments you'd like to make?

Notes

Global Warming(now called Climate Change) was a vehicle formed by Al Gore and ENRON executives and others to extract money from western world people
