Position

Yes

Notes**Clause**

Do you have any other comments you'd like to make?

Notes

One issue on which I no longer align with the party is light rail Vs road-based mass transit - in recent years I've revised my stance to favour self-drive electric infrastructure over rail. New Zealand's geography and lack of density, combined with the benefit of utilising existing infrastructure makes it extremely viable, and it is an area where global leadership is required.
