

# Your submission to Zero Carbon Bill

BG Parris (Bruce Parris)

**Reference no:** 10667

**Submitter Type:** Individual

**Clause**

1. What process should the Government use to set a new emissions reduction target in legislation?

**Notes**

when other countries adopt something then perhaps.

**Clause**

2. If the Government sets a 2050 target now, which is the best target for New Zealand?

**Notes**

photosynthesis requires sunlight, water and carbon dioxide, without anyone of these three there be NO plant growth.

**Clause**

3. How should New Zealand meet its targets?

**Notes**

when the government can control gases from volcanoes, then consider these dumb targets.

**Clause**

4. Should the Zero Carbon Bill allow the 2050 target to be revised if circumstances change?

**Position**

Yes

**Notes**

**Clause**

5. The Government proposes that three emissions budgets of five years each (i.e. covering the next 15 years) be in place at any given time. Do you agree with this proposal?

**Position**

No

**Notes**

**Clause**

8. Do you agree with the considerations we propose that the Government and the Climate Change Commission take into account when advising on and setting budgets? See p44 Our Climate Your Say

**Position**

No

**Notes**

**Clause**

9. Should the Zero Carbon Bill require Governments to set out plans within a certain timeframe to achieve the emissions budgets?

**Position**

No

**Notes**

**Clause**

10. What are the most important issues for the Government to consider in setting plans to meet budgets? For example, who do we need to work with, what else needs to be considered?

**Notes**

It would be good to work with China and the USA>

**Clause**

Do you have any other comments you'd like to make?

**Notes**

Forget the whole dumb idea
