

# Your submission to Zero Carbon Bill

**Reference no:** 11428

**Submitter Type:** Individual

**Clause**

1. What process should the Government use to set a new emissions reduction target in legislation?

**Notes**

The Government should pull its head out of its butt and accept that the climate has changed for 4 billion years and will continue to do so instead of attempting to find ways to gouge cash from Kiwis to fund socialist despots and tyrants in 3rd world rat holes.

**Clause**

2. If the Government sets a 2050 target now, which is the best target for New Zealand?

**Notes**

The best target would be one painted on the back of the government

**Clause**

3. How should New Zealand meet its targets?

**Notes**

By continuing down its current path of abject stupidity!

**Clause**

4. Should the Zero Carbon Bill allow the 2050 target to be revised if circumstances change?

**Notes**

Only if there is a larger caliber available

**Clause**

5. The Government proposes that three emissions budgets of five years each (i.e. covering the next 15 years) be in place at any given time. Do you agree with this proposal?

**Notes**

I agree that someone needs a kick in the slats.

**Clause**

6. Should the Government be able to alter the last emissions budget (i.e. furthest into the future)?

**Notes**

hahaha do you halfwits know how Government works? If they don't like it they'll change the legislation to what they want.

**Clause**

7. Should the Government have the ability to review and adjust the second emissions budget within a specific range under exceptional circumstances? See p36 Our Climate Your Say

**Notes**

See above

**Clause**

8. Do you agree with the considerations we propose that the Government and the Climate Change Commission take into account when advising on and setting budgets? See p44 Our Climate Your Say

**Notes**

I agree that the Government and the climate change commission are a bunch of chinless wonders that should be disbanded before they destroy NZ completely.

**Clause**

9. Should the Zero Carbon Bill require Governments to set out plans within a certain timeframe to achieve the emissions budgets?

**Notes**

It should set out a zero time frame for the Government to take a long walk off a short pier.

**Clause**

10. What are the most important issues for the Government to consider in setting plans to meet budgets? For example, who do we

need to work with, what else needs to be considered?

**Notes**

Well...you know...people that work maybe?

**Clause**

11. The Government has proposed that the Climate Change Commission advises on and monitors New Zealand's progress towards its goals. Do you agree with these functions? See p42 Our Climate Your Say

**Notes**

Awww come on! Why the would anybody set a goal and then monitor it?

**Clause**

12. What role do you think the Climate Change Commission should have in relation to the New Zealand Emissions Trading Scheme (NZ ETS)?

**Notes**

They should be planked

**Clause**

13. The Government has proposed that Climate Change Commissioners need to have a range of essential and desirable expertise. Do you agree with the proposed expertise? See p45 Our Climate Your Say

**Notes**

Of course. They should be long haired hippy pot smoking hop heads with a history of agitation and Communist party membership. Nothing else will be acceptable. Apparently Sue Bradford is looking for a job.

**Clause**

14. Do you think the Zero Carbon Bill should cover adapting to climate change?

**Notes**

Eh? You mean the genetic cloning of the Tuatara's DNA to be spliced with the Kiwi human genome is not already underway? WTH?

**Clause**

15. The Government has proposed a number of new functions to help us adapt to climate change. Do you agree with the proposed functions? See p47 Our Climate Your Say

**Notes**

Do they include the Tuatara?

**Clause**

16. Should we explore setting up a targeted adaptation reporting power that could see some organisations share information on their exposure to climate change risks?

**Notes**

Well who doesn't want another layer of bureaucratic wombledom sucking the guts out of the few remaining taxpayers?

**Clause**

Do you have any other comments you'd like to make?

**Notes**

How long have you got? I am totally against this proposal.
