Paul Marshall

## Reference no: 11606

Submitter Type: Individual

### Clause

The Government should wait until the major emitters like China, India, EU and the USA put in place economy destroying targets before even considering setting targets for New Zealand

### Notes

Defund any government funding/vote that has climate change in the heading or description.

### Notes

New Zealand should cease the virtue signalling nonsense and wait until the significant emitters make binding targets a reality.

### Notes

Zero carbon should be scrapped until China, India, EU, UK, USA, Russia, South America, and Canada have legislated for it.

**Notes**

This virtue signalling nonsense puts a handbrake on our economy for no measurable effect. Signing up for this is causing economic treason to the tax payers of New Zealand and those responsible should join Simon Upton (signed us up to the 1992 protocols) to a stint breaking rocks at her majesties pleasure.
