Subject: Carbon Zero submission

I BASIL WALKER of QUEENSTOWN record my submission to the Carbon Zero submission process and request to be heard in the hearing process.
Name : Basil Walter Walker

SUBMISSION

I am very concerned that the natural occurrence of evaporation, that has existed since documented time , has been completely ignored by scientific establishments worldwide in reaching their consensus that CO2 is responsible for Climate Change .

The natural occurrence of evaporation is so huge that it dwarfs any computer modeling of anthropogenic CO2 emissions and brings the whole Climate Change saga into a costly and wasteful hoax .

Only when officials include natural evaporation into the Climate Change discussion will there be creditable consultation and analysis.

New Zealand, as a small island has a massive surrounding ocean and territorial boundary that ranges from tropical climate to Antarctic weather conditions and as a nation is virtually blameless in any accusation of unreasonable misuse of gaseous emissions.

Therefore I record a submission AGAINST the Carbon Zero policy of Hon James Shaw of the Green Party.

Sincerely

Basil Walker

Queenstown

cc Mark Patterson - List MP Clutha Southland
