

# Your submission to Zero Carbon Bill

Jenny Sinclair

**Reference no:** 12240

**Submitter Type:** Individual

**Clause**

1. What process should the Government use to set a new emissions reduction target in legislation?

**Position**

The Government sets a goal to reach net zero emissions by the second half of the century and the Climate Change Commission advises on the specific target for the Government to set later

**Notes**

**Clause**

2. If the Government sets a 2050 target now, which is the best target for New Zealand?

**Position**

Net Zero Long-Lived Gases and Stabilised Short-Lived Gases - Long-lived gases to net zero by 2050 while also stabilising short-lived gases

**Notes**

**Clause**

3. How should New Zealand meet its targets?

**Position**

Domestic emissions reductions (including from new forest planting) and using some emissions reductions from overseas (international carbon units) that have strong environmental safeguards

**Notes**

**Clause**

4. Should the Zero Carbon Bill allow the 2050 target to be revised if circumstances change?

**Position**

Yes

**Notes**

Where science shows variation from current understanding.

**Clause**

5. The Government proposes that three emissions budgets of five years each (i.e. covering the next 15 years) be in place at any given time. Do you agree with this proposal?

**Position**

Yes

**Notes**

**Clause**

6. Should the Government be able to alter the last emissions budget (i.e. furthest into the future)?

**Position**

Yes - each incoming Government should have the option to review the third budget in the sequence

**Notes**

**Clause**

7. Should the Government have the ability to review and adjust the second emissions budget within a specific range under exceptional circumstances? See p36 Our Climate Your Say

**Position**

Yes

**Notes**

**Clause**

8. Do you agree with the considerations we propose that the Government and the Climate Change Commission take into account when advising on and setting budgets? See p44 Our Climate Your Say

**Position**

Yes

**Notes**

**Clause**

9. Should the Zero Carbon Bill require Governments to set out plans within a certain timeframe to achieve the emissions budgets?

**Position**

Yes

**Notes****Clause**

10. What are the most important issues for the Government to consider in setting plans to meet budgets? For example, who do we need to work with, what else needs to be considered?

**Notes**

Social issues. Consideration must be given to the wider economic and social effects of any plans. Time-frames should enable business to make changes gradually to ensure financial stability. Funding should be allocated for Research and Development in reducing emissions.

**Clause**

11. The Government has proposed that the Climate Change Commission advises on and monitors New Zealand's progress towards its goals. Do you agree with these functions? See p42 Our Climate Your Say

**Position**

Yes

**Notes****Clause**

12. What role do you think the Climate Change Commission should have in relation to the New Zealand Emissions Trading Scheme (NZ ETS)?

**Position**

Makes decisions itself in respect of the number of units available in the NZ ETS

**Notes****Clause**

13. The Government has proposed that Climate Change Commissioners need to have a range of essential and desirable expertise. Do you agree with the proposed expertise? See p45 Our Climate Your Say

**Position**

Yes

**Notes****Clause**

14. Do you think the Zero Carbon Bill should cover adapting to climate change?

**Position**

Yes

**Notes****Clause**

16. Should we explore setting up a targeted adaptation reporting power that could see some organisations share information on their exposure to climate change risks?

**Position**

Yes

**Notes**
