

Your submission to Zero Carbon Bill

(Rosemary Cookson)

Reference no: 13007

Submitter Type: Individual

Clause

1. What process should the Government use to set a new emissions reduction target in legislation?

Notes

The Government need to prove that the temperature is warming before they waste our money. Where does this money go. What has it been spent on. The science isn't settled. Has anyone taken the time to review all the predictions from the last 10 - 15 years to prove that these predictions have occurred?

Clause

2. If the Government sets a 2050 target now, which is the best target for New Zealand?

Notes

Focus on cleaning our rivers and beaches. Spend the money improving our cities infrastructure. sewerage systems. I'm am all for sustainability.

Clause

3. How should New Zealand meet its targets?

Notes

Same as above.

Clause

4. Should the Zero Carbon Bill allow the 2050 target to be revised if circumstances change?

Position

Yes

Notes

As more studies indicate the system is a wrought to control the population and tax for the benefit of few.

Clause

5. The Government proposes that three emissions budgets of five years each (i.e. covering the next 15 years) be in place at any given time. Do you agree with this proposal?

Position

No

Notes

Prove that this wrought is justified.

Clause

6. Should the Government be able to alter the last emissions budget (i.e. furthest into the future)?

Position

Yes - each incoming Government should have the option to review the third budget in the sequence

Notes

Prove this wrought is justified

Clause

7. Should the Government have the ability to review and adjust the second emissions budget within a specific range under exceptional circumstances? See p36 Our Climate Your Say

Position

No

Notes

Prove that this wrought is justified

Clause

8. Do you agree with the considerations we propose that the Government and the Climate Change Commission take into account when advising on and setting budgets? See p44 Our Climate Your Say

Position

No

Notes**Clause**

9. Should the Zero Carbon Bill require Governments to set out plans within a certain timeframe to achieve the emissions budgets?

Position

No

Notes**Clause**

10. What are the most important issues for the Government to consider in setting plans to meet budgets? For example, who do we need to work with, what else needs to be considered?

Notes

Forget Climate change (Since global warming has been changed because its a wrought) Just spend the money cleaning up the countries rivers and encourage people not to litter and take pride in our country.

Clause

11. The Government has proposed that the Climate Change Commission advises on and monitors New Zealand's progress towards its goals. Do you agree with these functions? See p42 Our Climate Your Say

Position

No

Notes

Just clean up the environment.

Clause

13. The Government has proposed that Climate Change Commissioners need to have a range of essential and desirable expertise. Do you agree with the proposed expertise? See p45 Our Climate Your Say

Position

No

Notes

Most experts seem to be corrupt these days. They are not held to account and the whole process is designed for some people to make money.

Clause

14. Do you think the Zero Carbon Bill should cover adapting to climate change?

Notes

We have been repeatedly indoctrinated on this. (when I was at school we were heading into a cooling period) Then we were warned we were all going to fry! Now it is climate change. Its a wrought!!!

Clause

15. The Government has proposed a number of new functions to help us adapt to climate change. Do you agree with the proposed functions? See p47 Our Climate Your Say

Position

No

Notes**Clause**

16. Should we explore setting up a targeted adaptation reporting power that could see some organisations share information on their exposure to climate change risks?

Position

No

Notes**Clause**

Do you have any other comments you'd like to make?

Notes

Its a wrought!
