Subject: Submission on the Zero Carbon Act via Forest & Bird website

Dear Ministry for the Environment,

I believe in a net-zero carbon future for New Zealand. We need to make dramatic reductions in our emissions to keep climate change limited to 1.5 degrees and ensure our precious native plants and animals are protected. Nature is our taonga and we cannot exist without it. We must act together.

The key things I support in a Zero Carbon Act are:

- target for net-zero carbon emissions by 2040 should be in the Act.
- The emissions from transport, industrial activity, agriculture, and all other sources should be included in the target. Even 'short-lived' gasses can have a huge effect on our climate and need to be reduced.
- Emissions budgets should be at least as important as fiscal budgets, and the Government should set plans to achieve them.
- An independent Climate Change Commission of experts should monitor emissions and give advice to keep New Zealand on-track for its emissions reduction goals.

anything you'd like to add?

Much more informed people will talk to the science however as a country who relies on tourism, we trade on our clean/green brand.

In my submission I'd like to ask at the next phase of (?)working group/s that tourism NZ (other relevant bodies) is asked to provide info. about the economic value of our clean/green brand and what the potential impact will be on tourism if we damage it.

Please ask the Ministry for the Environment to withhold my name and personal details from public posting
