Phase them out to change the mindset. If they're not available people just have to use re-usable/cloth bags. Like they have done in France and other countries.

1 but I don't agree with exemption for smaller retailers because we are talking about changing a 'disposable' culture.

It's a necessary change

Position

Yes

Notes

There are many options in reusable cloth bags, mesh bags for grocery produce.

Clause

10. How can people be encouraged to reuse multiple-use shopping bags enough times to offset the environmental impacts of producing them? (select one or more)

Position

national information campaign and mobile phone app for shoppers

Notes

Clause

11. What would help you and your family adjust to life without single-use plastic shopping bags?

Notes

We currently don't use them, bringing our own bags for shopping. I have a large bag which folds up to a very small pocket which I always have in my handbag. Having to purchase a reusable/paper bag would help, it would make it imperative to remember to bring your own reusable bag.
