6:42 a.m. To: Wastefree Subject: Submission on the proposed mandatory phase out of single-use plastic shopping bags I find it hilarious that our inept government is cherry picking pointless topics to pursue to hide the fact they don't have a clue what they are doing. In fact I took a look on the governmental website to see exactly what the qualifications were for "leading our country" oh. There's none. Any idiot can just do it. So here we are at a single use plastic bag ban. An inprepared one at that Hey idiots, don't ban the multiple use bags. We use them over and over again. Just change the material they are made of. Isn't it more of a pressing matter that we are unprepared for this summers coming drought or that the government housing minister has absolutely NO qualifications to do the job as we can see from the dismal failure that is the affordable housing scheme. We need a trump to negotiate better trade deals not a woman who lied to us about being pregnant to forward some nefarious feminist agenda. In short I do not support the ban because I have SEVERE doubts in the ability of the people in the government, and their ability to do it in a way that works. As we can see from this submission process they have. No. Effing. Idea. What they are doing already. Yours sincerely, Liz Marks
