

# Your submission to Proposed mandatory phase out of single-use plastic shopping bags

**Reference no:** 5753

**Submitter Type:** Individual

**Clause**

1. Do you agree with the proposed mandatory phase out of the sale or distribution of single-use plastic shopping bags in New Zealand, including those made of degradable (eg, oxo-degradable, biodegradable and compostable) plastic? Why / why not?

**Position**

Yes

**Notes**

There are not enough plant based plastic composers available to the public to actually compost degradable options. The term is also very broad - some will take weeks, others years to break down. They also continue to fuel our throw away culture, and use lots of resources to produce. Reusable is always better.

**Clause**

2. We have proposed a mandatory phase out of single-use plastic shopping bags. This could include under 50 microns or under 70 microns in thickness. If you agree with a mandatory phase out, which option do you prefer, and why?

**Position**

less than 70 microns in thickness

**Notes**

All plastic is harmful to the environment.

**Clause**

3. Are you aware of types of single-use plastic shopping bags that should be exempt from a mandatory phase out?

**Position**

No

**Notes**

**Clause**

4. Do you currently manufacture, sell, provide or import for sale or personal use these types of single-use plastic shopping bags:

**Position**

No

**Notes**

**Clause**

5. Should smaller retailers be exempted from a mandatory phase out of single-use plastic shopping bags? Why / why not?

**Position**

No

**Notes**

The ban should be widespread so that a plastic bag seen in public is obviously not allowed. People will try get around the rules if there are exemptions.

**Clause**

6. If smaller retailers are exempted from a mandatory phase out of single-use plastic shopping bags and they are defined by their number of full-time equivalent employees, what should that number be?

**Notes**

1

**Clause**

7. The proposed mandatory phase-out period for single-use plastic shopping bags is at least six months from when regulations are Gazetted , subject to consultation. Do you agree with this timing?

**Position**

No

**Notes**

Less would be better

**Clause**

7a. If no, what do you think would be a more appropriate phase-out period?

**Position**

two months

**Notes**

**Clause**

8. Do you agree that the benefits expected from implementing a mandatory phase out of single-use plastic shopping bags exceed the costs expected from implementing the phase out? Why / why not? Please consider both monetary and non-monetary costs and benefits (those that can be measured by money as well as those that can't).

**Position**

Yes

**Notes**

**Clause**

9. Do you think that reasonably practicable alternatives to single-use plastic shopping bags exist in New Zealand? Why / why not?

**Position**

Yes

**Notes**

**Clause**

10. How can people be encouraged to reuse multiple-use shopping bags enough times to offset the environmental impacts of producing them? (select one or more)

**Position**

national information campaign and mobile phone app for shoppers

**Notes**

**Clause**

11. What would help you and your family adjust to life without single-use plastic shopping bags?

**Notes**

Not having another option at the supermarket would help you to remember next time. Encouraging people to leave reusable bags by the door to go back into the car, or having a small bag on your key ring, or driving your trolley to your car and loading the groceries straight in, instead of into bags.
