11. What would help you and your family adjust to life without single-use plastic shopping bags?

13. Please provide any additional comments or suggestions about the proposed mandatory phase out of single-use plastic shopping bags.

**Notes**

I don't think it's enough to stop at single use bags, all single use plastics are a huge issue and are found everywhere - in food and every day packaging, it's nearly impossible to get away from them without making a hugely concerted effort. There needs to be more responsibility placed onto manufacturers and less on end users.
