

# Your submission to Proposed mandatory phase out of single-use plastic shopping bags

**Reference no:** 744

**Submitter Type:** Individual

**Clause**

1. Do you agree with the proposed mandatory phase out of the sale or distribution of single-use plastic shopping bags in New Zealand, including those made of degradable (eg, oxo-degradable, biodegradable and compostable) plastic? Why / why not?

**Position**

Yes

**Notes**

**Clause**

2. We have proposed a mandatory phase out of single-use plastic shopping bags. This could include under 50 microns or under 70 microns in thickness. If you agree with a mandatory phase out, which option do you prefer, and why?

**Position**

less than 70 microns in thickness

**Notes**

**Clause**

3. Are you aware of types of single-use plastic shopping bags that should be exempt from a mandatory phase out?

**Position**

No

**Notes**

**Clause**

4. Do you currently manufacture, sell, provide or import for sale or personal use these types of single-use plastic shopping bags:

**Position**

No

**Notes**

**Clause**

5. Should smaller retailers be exempted from a mandatory phase out of single-use plastic shopping bags? Why / why not?

**Position**

No

**Notes**

We need to foster a shift in culture across our entire society, not have different rules applying at different places/times.

**Clause**

7. The proposed mandatory phase-out period for single-use plastic shopping bags is at least six months from when regulations are Gazetted , subject to consultation. Do you agree with this timing?

**Position**

Yes

**Notes**

**Clause**

8. Do you agree that the benefits expected from implementing a mandatory phase out of single-use plastic shopping bags exceed the costs expected from implementing the phase out? Why / why not? Please consider both monetary and non-monetary costs and benefits (those that can be measured by money as well as those that can't).

**Position**

Yes

**Notes**

There is virtually no extra long-term monetary cost as people change their behaviour around the ban. You take re-usable bags to the supermarket. You wash your bin out, and compost your food waste.

**Clause**

9. Do you think that reasonably practicable alternatives to single-use plastic shopping bags exist in New Zealand? Why / why not?

**Position**

Yes

**Notes****Clause**

10. How can people be encouraged to reuse multiple-use shopping bags enough times to offset the environmental impacts of producing them? (select one or more)

**Position**

voluntary incentive schemes by individual retailers

**Notes**

Rather like some coffee shops give you a discount for bringing a keep-cup, retailers should give a small discount for shoppers bringing their own bags.

**Clause**

11. What would help you and your family adjust to life without single-use plastic shopping bags?

**Notes**

I have lived in France, where single-use plastic bags are banned. I simply took a backpack with me to the supermarket.

**Clause**

12. How can data on single-use plastic shopping bags and other single-use plastics entering the market and monitoring of reductions be improved?

**Notes**

Bags should have barcodes printed on them and retailers should have to scan them as they use them. Then numbers can accurately be reported.
