Kerryn Olsen

Reference no: 852

Submitter Type: Individual

Clause

1. Do you agree with the proposed mandatory phase out of the sale or distribution of single-use plastic shopping bags in New Zealand, including those made of degradable (eg, oxo-degradable, biodegradable and compostable) plastic? Why / why not?

Position

Yes

Notes

Bring-you-own bags work very well and degradable plastics still poison the soil and create methane when they end up in landfill.

Position

Other (please specify)

Notes

All single-use bags should be phased out. Plastic should not be being used as a transport item.

Clause

7. The proposed mandatory phase-out period for single-use plastic shopping bags is at least six months from when regulations are Gazetted, subject to consultation. Do you agree with this timing?

No

Notes

It could go much faster - many of the supermarkets are already plastic-bag free.

Clause

Position

two months

Notes

Clause

8. Do you agree that the benefits expected from implementing a mandatory phase out of single-use plastic shopping bags exceed the costs expected from implementing the phase out? Why / why not? Please consider both monetary and non-monetary costs and benefits (those that can be measured by money as well as those that can't).

Yes

Notes**Clause**
