

# Your submission to Clean Water

What are your thoughts on the proposed swimming targets, for example, on the timeframes and categories?

**Notes**

I think it is outrageous that swimming target is set for 2040 - the rivers and streams in many places are polluted now. We should be making them swimmable now not waiting until it is too late. Why does the Govt not care about our environment and is prepared to let it be destroyed before our eyes.

**Clause**

What are your thoughts on the proposed stock exclusion regulation, for example, the timeframes and stock types to be excluded?

**Notes**

Stock should be excluded from waterways now. Why is the Govt so intent on destroying our rivers and wildlife. Please we need action NOW!!
