Submisson on the Water 2017 Consultation

Theodore Fink

To the Environment Minister,

I don,t think there has ever been in my life a time when I have felt more dispirited than after attending your swimmable rivers talk in Wellington.
No one can say that what was presented was not cleaver or without merit but it was presented to cover up years of neglect and massive fraudulent action on the part of the Government you are part of in it's effort to make money no matter what. What was presented in no way answers the problems your policy's have created. My grandchildren and yours deserve better from you and the Government you are part of.

I don't want to have my name published on the MFE website, or released via OIA - no
