

# Your submission to Clean Water

Alexis French

**Clause**

What are your thoughts on the proposed swimming targets, for example, on the timeframes and categories?

**Notes**

Higher targets for contaminant levels.

**Clause**

What do you think about the proposed amendments to the Freshwater NPS?

**Notes**

They are not stringent enough, and will relegate future generations to unclean waters.

**Clause**

What are your thoughts on the proposed stock exclusion regulation, for example, the timeframes and stock types to be excluded?

**Notes**

More stringent guidelines needed.

**Clause**

Do you have any other comments on the contents of the Clean Water discussion document?

**Notes**

We need to implement strict guidelines greatly limiting stock use. We are reaching a tipping point on water quality and ignoring the problems will relegate our children to unswimmable and undrinkable water.
