Why do we need to amend the NPS-FM?

1. Have we correctly identified the problems currently associated with implementing the NPS-FM? No

2. If not, what problems, if any, you have faced with implementation?

no availability of information on toxins and nitrate levels, entering our waters.is being made available to public,to be able to make an informed decision.No information is being made publicly available on already poluted waters and lakes.And what if any steps are being made to rectify,the dire situation.Also no information is being released on fish and game mortalities.

Options for providing further national direction

3. Do you agree that amending the NPS-FM would solve the problems identified in section 2? Yes

Comment

much more publicised information needs to be made transparently clear to allow the public to make informed decisions on our water ways.

4. If not, would additional guidance be sufficient to solve the problems identified? Yes

Comment

5. Is there another solution to the problems? Why would that be preferable? Yes

Comment

Public referendium on all decisions regarding all water ways,used for recreational use.Not allowing Ecan and govt,to make decisions on our behalf.

6. Do you agree with requiring councils to account for all water takes? Yes

Comment

If accountability is not enforced at all levels, the correct monitoring cannot take place.

7. Do you agree with requiring councils to account for all sources of contaminants? Yes

Comment

This information also needs to be made public. With culperets resorse consent being revoked No exceptions major fines for coulperets being ,mandatory. And closure for failing to comply.

8. Do you think that the requirements in policies CC1 and CC2 of the proposed NPS-FM amendments have the right balance between national prescription and regional flexibility? No

Comment

9. Do you think the time period allowed for councils to develop accounting systems is appropriate? No

Comment

No the chain is often dragged in this instance, with water ways suffering as a result.

Proposed amendments to the NPS-FM: NOF values

10. Should there be a national set of values as outlined in appendix 1 of the proposed NPS FM? Yes

Comment

11. Are there any additional values that should be included? Why are these values nationally significant/important (recognising that councils can use other values if they wish)?

Comment

12. Are there any values that should be deleted from appendix 1 of the proposed NPS-FM and why? No

Comment

13. Do you agree with the descriptions of the national values in appendix 1 of the proposed NPS FM? No

Comment

Proposed amendments to the NPS-FM: NOF attributes

14. Do you agree with the attributes associated with the values in appendix 2 of the proposed NPS FM? No

Comment

15. Do you agree with the numeric attribute states in appendix 2 of the proposed NPS FM? No

16. Do you agree with the narrative attribute states in appendix 2 of the proposed NPS FM?

Comment

Proposed amendments to the NPS-FM: Timing of putting NOF in place

17. Do you agree with putting a NOF in the NPS-FM now, including only the attributes for which there is adequate evidence, and updating it as the scientific basis for further attributes and states become available? Yes

Comment

18. Or should the Government delay putting the NOF into place until a more comprehensive set of attributes has been developed?

Comment

Proposed amendments to the NPS-FM: Processes for freshwater objective setting

19. Do you agree with having the process requirements to link values and freshwater objectives directed in policy CA1 in the proposed amendments? If not, why not?

Comment

20. Do you think the process outlined will work? If not, why not?

Comment

21. Do you agree with the proposed matters in policy CA1(e) that must be considered when establishing freshwater objectives? If not, why not?

Comment

22. Is it clear that setting freshwater objectives is an iterative process which involves consideration of the impacts of the limits, management methods, and timeframes required to meet a potential freshwater objective?

Comment

23. Do you agree that regions should have discretion to determine timeframes for meeting freshwater objectives?
No

Comment

Objectives need to be given urgent priority, to protect and improve our water ways. NZ's green image has long been destroyed.

24. Are there any aspects of the process that are not clear? No

Comment

Comment

26. Do you agree that human health for secondary contact recreation (such as boating and wading) should be a compulsory value? Yes

Comment

27. Do you think there should be more compulsory values? If so, what should they be, and why? What attributes should be associated with them? Yes

Comment

Proposed amendments to the NPS-FM: National bottom line

28. Should there be numeric bottom lines for attributes of the compulsory values? Yes

Comment Much much higher standard is needed.

29. Do you agree with the proposed level at which bottom lines would be set for each attribute of ecosystem health? If not, at what level should they be set? No

Comment Our levels are an obscene joke. as a consequence our water ways are dying.

30. Do you agree with the proposed level at which bottom lines would be set for each attribute of human health for secondary contact recreation? If not, at what level should they be set? No

Comment

31. Do you agree that transitional arrangements should be provided to allow councils and communities to set objectives below a national bottom line for a short time? No

Comment

these objectives always drag on and on, often with no end in sight, hoping the public might forget.

Proposed amendments to the NPS-FM: Exceptions to bottom lines

32. Do you agree that there could be exceptions where the natural state of the freshwater management unit breaches bottom lines? Where in your region do you think this type of exception might apply? Yes

Comment avon ,heathcote,rivers

Where in your region do you think this type of exception might apply? No

Comment

34. Do you agree that there could be exceptions for significant existing infrastructure (eg, dams), where a choice is made to manage a freshwater management unit below bottom lines? Where in your region do you think this type of exception might apply? No

Comment
