Subject: WATER WAYS NEW ZEALAND
Date: Tuesday, 21 January 2014 11:04:09 a.m.

TO WHOM IT CONCERNS

Clean swimming and drinking water in New Zealand's water ways is about changing attitudes and not off setting against cost of cleanup. The cost of the cleanup should be levied against those that pollute the water ways. Maybe a tax straight from the various dairy company and freezing works payout schedules and sales yard sale sheets and all home kill butchers shops would help fund this issue(like a toll road user pays, in this case abuser pays)

As a transport company we are levied with emissions tax on fuel, as well as the extra capital cost to use the technology we were told this was going to be the way forward, no compromise.

Polluted water brings sickness ,sickness brings health issues health issues bring medical bills , most medical bills of this type probably go through the public health sector. I.e. tax payers dollars . once again we are treating the symptom , WE SHOULD BE TREATING THE PROBLEM.

THE ANTI SMOKING CAMPAINGE WAS A HUGE COST ON THE TAX PAYER THIS COST WILL BE RECOUPED TEN FOLD WITH THE REDUCTION IN MEDICAL BILLS (TREATING THE PROBLEM NOT THE SYMPTOM)

Section 4.3 compulsory value for all water ways . they must be swimmable and drinkable
ABSOLUTLEY NO SHORT CUTS OR COMPROMISING

Kind regards
