

To Whom It May Concern

With regards to the National Policy Statement On Freshwater Management, which I understand is under review. Please register this email as a formal submission.

I request that under Section 4.3 the Compulsory Value be set at a swimmable safe immersion level.

Any lessening of this standard I would regard as a crime against the environment and the heritage that most New Zealander's treasure, and that makes this a special place.

Please acknowledge that this submission has been received and will be considered.

Sincerely

Abel Butler
