We can't exactly call New Zealand "Clean and Green" if there are not rules to actually protect our environment as we the people of Aotearoa would like our rivers, lakes, beaches and sea shores to be.

The people of Aotearoa love the water for our livelihood as well as for recreation and enjoyment. It's what we love doing, enjoying our waters.

If the government don't have the same passion as the people of New Zealand in keeping our waters clean then maybe you shouldn't be in government.

WE WANT NEW ZEALAND CLEAN AND GREEN. WE WANT TO KEEP OUR WATERS CLEAN.
