Why do we need to amend the NPS-FM?

1. Have we correctly identified the problems currently associated with implementing the NPS-FM? No

2. If not, what problems, if any, you have faced with implementation?

As volunteer group no ability to other than suggest to farmers they do something to control agricultural run off.

Options for providing further national direction

3. Do you agree that amending the NPS-FM would solve the problems identified in section 2? Yes

Comment

Be more specific as to standards required in water quality and responsibility of farmers to meet them.

4. If not, would additional guidance be sufficient to solve the problems identified? No

Comment Insufficient

5. Is there another solution to the problems? Why would that be preferable? No

Comment

Proposed amendments to the NPS-FM: accounting

6. Do you agree with requiring councils to account for all water takes? Yes

Comment

7. Do you agree with requiring councils to account for all sources of contaminants? Yes

Proposed amendments to the National Policy Statement for Freshwater Management 2011

Copy of your submission

Comment

8. Do you think that the requirements in policies CC1 and CC2 of the proposed NPS-FM amendments have the right balance between national prescription and regional flexibility? No

Comment

Standards not high enough nationally. Secondary contact should be replaced with able to be swum in.

9. Do you think the time period allowed for councils to develop accounting systems is appropriate? No

Comment Problem is already here and can only worsen if steps not taken immediately

Proposed amendments to the NPS-FM: NOF values

10. Should there be a national set of values as outlined in appendix 1 of the proposed NPS FM? Yes

Comment

Intrinsic values list should be reinstated as acknowledges human responsibility to maintain balance of nature for the planet

11. Are there any additional values that should be included? Why are these values nationally significant/important (recognising that councils can use other values if they wish)? Yes

Comment Replace secondary contact with able to be swum in and drinkable

12. Are there any values that should be deleted from appendix 1 of the proposed NPS-FM and why?

Comment

13. Do you agree with the descriptions of the national values in appendix 1 of the proposed NPS FM?

Comment mostly except secondary contact should be replaced by swimmable and drinkable

Proposed amendments to the NPS-FM: NOF attributes

14. Do you agree with the attributes associated with the values in appendix 2 of the proposed NPS FM?

Comment

15. Do you agree with the numeric attribute states in appendix 2 of the proposed NPS FM?

Comment

16. Do you agree with the narrative attribute states in appendix 2 of the proposed NPS FM?

Comment

Proposed amendments to the NPS-FM: Timing of putting NOF in place

17. Do you agree with putting a NOF in the NPS-FM now, including only the attributes for which there is adequate evidence, and updating it as the scientific basis for further attributes and states become available? Yes

Proposed amendments to the National Policy Statement for Freshwater Management 2011

Copy of your submission

Comment

18. Or should the Government delay putting the NOF into place until a more comprehensive set of attributes has been developed? Yes

Comment

At the moment the amendments seem to give license to pollute. Rivers deserve better protection

Proposed amendments to the NPS-FM: Processes for freshwater objective setting

19. Do you agree with having the process requirements to link values and freshwater objectives directed in policy CA1 in the proposed amendments? If not, why not?

Comment

20. Do you think the process outlined will work? If not, why not?

Comment

21. Do you agree with the proposed matters in policy CA1(e) that must be considered when establishing freshwater objectives? If not, why not? Yes

Comment Providing values are those for pristine river environment

22. Is it clear that setting freshwater objectives is an iterative process which involves consideration of the impacts of the limits, management methods, and timeframes required to meet a potential freshwater objective?

Comment

23. Do you agree that regions should have discretion to determine timeframes for meeting freshwater objectives? No

Comment Pollution has to be addressed now

24. Are there any aspects of the process that are not clear?

Comment

Proposed amendments to the NPS-FM: Compulsory values

25. Do you agree that ecosystem health should be a compulsory value? Yes

Comment Absolutely

26. Do you agree that human health for secondary contact recreation (such as boating and wading) should be a compulsory value? Yes

Comment Also primary contact and drinkable

27. Do you think there should be more compulsory values? If so, what should they be, and why? What attributes should be associated with them? Yes

Proposed amendments to the National Policy Statement for Freshwater Management 2011

Copy of your submission

Comment Swimmable and drinkable

Proposed amendments to the NPS-FM: National bottom line

28. Should there be numeric bottom lines for attributes of the compulsory values? Yes

Comment

29. Do you agree with the proposed level at which bottom lines would be set for each attribute of ecosystem health? If not, at what level should they be set?

Comment Need to seek scientific advice

30. Do you agree with the proposed level at which bottom lines would be set for each attribute of human health for secondary contact recreation? If not, at what level should they be set? No

Comment Should be swimmable and drinkable

31. Do you agree that transitional arrangements should be provided to allow councils and communities to set objectives below a national bottom line for a short time? No

Comment

Rivers are already suffering. Much harder to clean up if problem gets worse and if infrastructure bought, and set up, that is unsustainable if water quality to be protected.

Proposed amendments to the NPS-FM: Exceptions to bottom lines

32. Do you agree that there could be exceptions where the natural state of the freshwater management unit breaches bottom lines? Where in your region do you think this type of exception might apply? Yes

Comment Natural wildlife pollution

Where in your region do you think this type of exception might apply?

Comment

34. Do you agree that there could be exceptions for significant existing infrastructure (eg, dams), where a choice is made to manage a freshwater management unit below bottom lines? Where in your region do you think this type of exception might apply? No

Comment

35. Do you agree that freshwater management units eligible under the first two exceptions above should be decided by regional councils? No

Comment

36. Do you agree that freshwater management units eligible for an exception due to the effects of significant existing infrastructure should be decided at a national level and included in appendix 3 of the NPS-FM? No

Comment

Proposed amendments to the National Policy Statement for Freshwater Management 2011

Copy of your submission

37. What should the criteria be for allowing exceptions based on significant existing infrastructure?

Comment

Proposed amendments to the NPS-FM: T?ngata whenua values

38. Do you think the proposed NPS-FM adequately provides for Te Mana o te Wai?

Comment

39. Do you agree with the way t?ngata whenua values are described in proposed appendix 1 of the NPS-FM?

Comment

40. Do you support adding Te Mana o te Wai to objective A1 of the amended NPS FM as a matter that must be safeguarded? What would be the implications of adding this to objective A1 in the NPS-FM? Yes

Comment

Proposed amendments to the NPS-FM: Monitoring

41. Do you agree with the new section in the NPS-FM requiring monitoring plans? If not, why not?

Comment

Other comments

42. Is there anything else you would like to tell us about the issues and proposals in this document?

1. Need to reinstate section that mentions councils managing land use and development..... to lower economic footprint.

2. Need to use terminology that doesn't relegate water to the status of a mere resource. Rivers, ponds, lakes, lagoons, etc should be used to describe waterbodies instead of freshwater management units.
