SUBMISSION:

Here are my ideas, thinking ahead of how our grand children will inherit the outcome of what is decided shortly.

1. Safe for swimming._____)
2. Clean drinking water._____)

3. Cleanup our rivers
4. Limit nitrogen/phosphorus nutrients.
5. Estuaries are fish nurseries, therefore measure how much algae, bacteria is covering all river beds.
6. Protect our native fish
7. Our wetlands are important for recreation, and a tourist destination.

Thank you,
Jan Thomson
