Subject: Submission 03009 - Peter Williams - Proposed changes to Freshwater Management
Date: Saturday, 1 February 2014 7:52:22 p.m.

Dear Minister

I Understand that there is a consideration to allow increased pollution levels in particular the nitrate levels in our waterways and wish to register my opposition to this measure.

All New Zealand freshwaters should be swimmable, fishable and safe for food gathering and that the National Objectives Framework should include measurable parameters that directly relate to these values.

As a New Zealand Citizen, I want all New Zealand water to be as clean as possible. I fish the **Northland** rivers and lakes and want them to be habitable to trout and salmon and safe for fishing and eating the fish taken.

Yours faithfully

Peter Williams
