

Your submission to Clean Water

Aidan Thomas Gauland

Clause

What are your thoughts on the proposed swimming targets, for example, on the timeframes and categories?

Notes

The proposed amendments are only masking the problem by lowering standards, instead of addressing the problem.

Clause

What do you think about the proposed amendments to the Freshwater NPS?

Notes

I am highly concerned that the standards that would be set by the proposed changes are too low to minimise damage to the environment, instead favouring short-term economic growth at the cost of long-term ecological damage that will end up damaging the economy as well.

Clause

What are your thoughts on the proposed stock exclusion regulation, for example, the timeframes and stock types to be excluded?

Notes

I am highly concerned that the standards that would be set by the proposed changes are too low to ensure damage to the waterways and local ecosystems is kept to a minimum while still allowing for economic growth and development.
