

Your submission to Clean Water

Peter Jackson

Clause

What are your thoughts on the proposed swimming targets, for example, on the timeframes and categories?

Notes

Swimming in waterholes is a birthright of all NZ-ers. The current proposal is weak and vague and does not apply to many waterbodies.

Clause

What do you think about the proposed amendments to the Freshwater NPS?

Notes

Increasing the emphasis on economic outcomes was not approved by Parliament, so including it here is undemocratic and underhand.

Clause

What are your thoughts on the proposed stock exclusion regulation, for example, the timeframes and stock types to be excluded?

Notes

Long overdue but neglects other aspects of riparian management.

Clause

Do you have any other comments on the contents of the Clean Water discussion document?

Notes

Evidence of decline in water quality is overwhelming. We've had years of faux consultations like the Land and Water Forum which now look just like delaying tactics. Please find some genuine commitment and do something.
