

Your submission to Clean Water

DAVID EDWARD KENNEDY

Clause

What are your thoughts on the proposed swimming targets, for example, on the timeframes and categories?

Notes

broadly agree although they could be slightly optimistic

Clause

What are your thoughts on the proposed stock exclusion regulation, for example, the timeframes and stock types to be excluded?

Notes

keep cattle out but there must be flexibility a few cattle in the back country where fencing would be a nightmare will cause little pollution compared to large herds on the plains. so please no blanket fencing of all waterways

Clause

Do you have any other comments on the contents of the Clean Water discussion document?

Notes

my other worry is all the fenced off land has the potential to be overtaken by noxious weeds which then is a cost to eradicate and more chemicals used
