

Your submission to Clean Water

Nicola Cheyenne Lambert

Clause

What are your thoughts on the proposed swimming targets, for example, on the timeframes and categories?

Notes

I wish for the lowering of permitted levels of pollutants, I would like the time frame brought forward and I'd like to see this put into action immediately for the sake of my children!

Clause

What do you think about the proposed amendments to the Freshwater NPS?

Notes

How can allowing higher levels of pollutants into our waterways create cleaner swimming water. This is an utter joke.

Clause

What are your thoughts on the proposed stock exclusion regulation, for example, the timeframes and stock types to be excluded?

Notes

Riparian planting should be mandatory and stock fencing should be monitored and a finesble offence. All stock should be kept well away from the water ways. If we as a country get enraged st freedom campers using our land as a toilet, we should be incensed at the lack of controls around the millions of stock doing the same!

Clause

Do you have any other comments on the contents of the Clean Water discussion document?

Notes

Please please get this right. Put the people ahead of the businesses for once- and yes, farming is a business.
