Clause

What are your thoughts on the proposed swimming targets, for example, on the timeframes and categories?

Notes

Firstly the swimming targets are not of a high enough standard. You have lowered the criteria for what is swimmable. This is a deception to the public of NZ. The timeframes are too long. This Government does not have to be responsible for attaining these goals.

Clause

What do you think about the proposed amendments to the Freshwater NPS?

Notes

Very poor. These proposals are just a facade to do nothing for the next ten years. To allow our rivers and waterway to continue to deteriorate and irrigation draw to carry on increasing.

Clause

What are your thoughts on the proposed stock exclusion regulation, for example, the timeframes and stock types to be excluded?

Notes

Yes this is excellent again timeframes are too long. These goals could be achieved much quicker.

Do you have any other comments on the contents of the Clean Water discussion document?

Notes

Clean water is going to become an increasingly vital element to our existence to set goals that are 23yrs ahead is shocking.
