

Your submission to Clean Water

Kerry Neilson

Clause

What are your thoughts on the proposed national swimming target, and/or proposed amendments to the Freshwater NPS to improve water quality in relation to swimming?

Notes

Our rivers need to be so clean, the water can be safely drunk. We all inadvertently drink some water when we swim. My childhood was spent by our local rivers, swimming, playing, and drinking in and of, the water. I expect nothing less for my grandchildren. We must always remember we have a duty to leave things better than we found them. We must care for our rivers and our land (and air), not desecrate them.
