Name Patrick O' Reilly

Organisation (if applicable)

Address [REDACTED]

Telephone [REDACTED]

Email [REDACTED]

## Objectives for the contribution

Do you agree with these objectives for our contribution? Yes

1b. What is most important to you?

A reduction in emissions and a transition to a greener economy with a focus on the long term and not short term gains for business.

What would be a fair contribution for New Zealand?

2. What do you think the nature of New Zealand's emissions and economy means for the level of target that we set? 40% reduction with a focus on driving innovation through business.

How will our contribution affect New Zealanders?

3. What level of cost is appropriate for New Zealand to reduce its greenhouse gas emissions? For example, what would be a reasonable reduction in annual household consumption? 40% reduction for household consumption.

4. Of the opportunities for New Zealand to reduce its emissions (as outlined on page 15 of the discussion document), which do you think are the most likely to occur, or be most important for New Zealand? Reduction in GHG emitted by Dairy, Energy and Transport.

## Summary

5. How should New Zealand take into account the future uncertainties of technologies and costs when setting its target?

Increase research and innovation grants to stimulate green business growth and New financing options.

## Other comments

6. Is there any further information you wish the Government to consider? Please explain.

There is no economy without Environment and New Zealand is falling behind the innovation already happening in other parts of the world. Do you care?
