Clause

What are your thoughts on the proposed swimming targets, for example, on the timeframes and categories?

Notes

Water quality target should be swimmable as our local rivers were Untill 7 years ago. Have since been toxic with phoridium algae every summer regardless of flow.

Clause

What do you think about the proposed amendments to the Freshwater NPS?

Notes

They're inadequate and class my local rivers as excellent quality when they're toxic every summer with phoridium algae.

Clause

What are your thoughts on the proposed stock exclusion regulation, for example, the timeframes and stock types to be excluded?

Notes

All stock should be excluded from waterways within 5 years
