

# Your submission to Clean Water

Phelvin partnership (Michael and Patricia Phelvin)

## Clause

What are your thoughts on the proposed swimming targets, for example, on the timeframes and categories?

## Notes

Not to have to look for a notice every time I go near a lake or river, Not in 10 years ,not in 5 years, but in one year.

## Clause

What do you think about the proposed amendments to the Freshwater NPS?

## Notes

It's just not on. moving the count is not a plan, it's a cop out of responsibility for looking after your people's health and well being

## Clause

What are your thoughts on the proposed stock exclusion regulation, for example, the timeframes and stock types to be excluded?

## Notes

The time frame is too long and existing rules are already being ignored. No reason to think this will not contour when the councils are stacked with members have vested interest.

## Clause

Do you have any other comments on the contents of the Clean Water discussion document?

## Notes

Is it oK to have town after town not able to expect clean ,untreated water from their taps when clean aquifer is pumped to stock ,just to then be leached into our water ways, dirty and toxic.
