## Contact information

Name Alan William Preston

Organisation (if applicable)

Address 4 Insley Street

Telephone [REDACTED]

Email [REDACTED]

## Objectives for the contribution

Do you agree with these objectives for our contribution? Yes

1b. What is most important to you?

That we immediately act to achieve the maximum reduction in greenhouse gas emissions.

What would be a fair contribution for New Zealand?

2. What do you think the nature of New Zealand's emissions and economy means for the level of target that we set?

That we need to address the underlying conflict of interest that exists between our corporate sector and their political representation that ensures their activities are unimpeded.

How will our contribution affect New Zealanders?

3. What level of cost is appropriate for New Zealand to reduce its greenhouse gas emissions? For example, what would be a reasonable reduction in annual household consumption?

4. Of the opportunities for New Zealand to reduce its emissions (as outlined on page 15 of the discussion document), which do you think are the most likely to occur, or be most important for New Zealand?

## Summary

5. How should New Zealand take into account the future uncertainties of technologies and costs when setting its target?

## Other comments

6. Is there any further information you wish the Government to consider? Please explain.
