

Your submission to Clean Water

Deborah Spiller

New Zealand

Clause

What are your thoughts on the proposed swimming targets, for example, on the timeframes and categories?

Notes

All water categories and targets must be put on an urgent agenda. The proposed levels of toxicity for our waterways is unacceptable. We must have an immediate working plan to return our waterways to swimmable, drinkable in fact they must be SAFE for all living organisms anything else is irresponsible to our planet.

Clause

What do you think about the proposed amendments to the Freshwater NPS?

Notes

Nowhere enough effort, focus or commitment to clean up and protect our Water!

Clause

What are your thoughts on the proposed stock exclusion regulation, for example, the timeframes and stock types to be excluded?

Notes

Stock as well as fertilizer runoff and other industry runoff need to be a priority with government assistance to ensure it is being done asap

Clause

Do you have any other comments on the contents of the Clean Water discussion document?

Notes

Stop polluting and Selling our most precious asset. Water is in worldwide crisis and it needs our utmost dedication to protect it. Do not allow pipelines through our National parks that effectively destroy our ecosystems, our conservation and our water tables. New Zealand will benefit the most in the world if we can protect our environment rather than disrespecting our living lifestream water!
