Submission on the Water 2017 Consultation

Will Wallace

To the Environment Minister,

My desire is simple. I have farm land on the Manawatu River. As a child i could swim in this river. We are planting the banks on our land and doing all we can to minimize run off.

Stronger incentives need to be made for the farmers up and down stream to do the same. It's not hard to do it just take time and work.

Thank you for your time.

Will

I want stronger rules that will stop pollution before it enters rivers; like a moratorium on new dairy farm conversions, ending subsidised irrigation, and better urban and sewerage design in our towns and cities.

I don't want to have my name published on the MFE website, or released via OIA - no
