

# Your submission to Clean Water

Donald Scott

**Clause**

What are your thoughts on the proposed swimming targets, for example, on the timeframes and categories?

**Notes**

Regional Councils can contribute to safe enjoyment of freshwaters by advising the public of location, timing , and safety limits for all ages

**Clause**

What do you think about the proposed amendments to the Freshwater NPS?

**Notes**

The proposals are good and will require more work by councils at a technical level. this may require more staff at a technical level

**Clause**

What are your thoughts on the proposed stock exclusion regulation, for example, the timeframes and stock types to be excluded?

**Notes**

Stock can do a lot of damage, particularly on soft margins. Stock should have access to drinking water and should be excluded from general access, but may have limited access points

**Clause**

Do you have any other comments on the contents of the Clean Water discussion document?

**Notes**

Water quantity, B1 p.12. There are possible conflicts here, and the difficulty is establishing minimum flows, particularly in small streams. takes should preferably be from large flows
